Hypotheses

My answers to the questionnaires

- **Is the site user friendly?** I think so, everything is pretty straight forward with appropriate navigation bars to point you in the direction you want to go.

- **Is there anything on the site that you feel is unnecessary?** I don't think so, I feel everything serves a function or purpose.

- **If you could add one additional feature to the site what would it be?** We are currently working on a rating system for trails which I think would be helpful and a great way to showcase trails with reviews from other users.

- **Is the site informative to someone interested in hiking or using trails?** I believe so, it has sufficient information for different trails and the ability to add more trails if necessary.

- **What would you change about the site if you could?** Perhaps just unify everything on the site so it matches more. We actually are working on this change currently-Should be fixed by the week of August 3rd .

- **Is the site visually appealing?** I think the aesthetics look great. The homepage draws you in with movement and it also has a minimalist design which ensures the site is not overloaded with too many options or information to overwhelm users.

- **What is your favorite thing about the site?** I think right now, the login and registration feature is my favorite. Really cool having the ability to same usernames and passwords in a database and query back for them to login. I also think to tail in on the last question the site is visually appealing which will help for drawing in customers.

Paige Dixon (Interview 1)

- **Is the site user friendly?** Yes

- **Is there anything on the site that you feel is unnecessary?** Nothing unnecessary, needs more details.

- **If you could add one additional feature to the site what would it be?** Perhaps a "mission" statement to the homepage.

- **Is the site informative to someone interested in hiking or using trails?** Almost-Pa, no. WV, yes. Maryland, no.

- **What would you change about the site if you could?** Make the login require real email addresses

- **Is the site visually appealing?** Yes

- **What is your favorite thing about the site?** Main page.

(Interview 2) Tyler Sobzcak

- **Is the site user friendly?** yes

- **Is there anything on the site that you feel is unnecessary?** Not that I notice. Everything seems to have a function/purpose.

- **If you could add one additional feature to the site what would it be?** Maybe an option to search

- **Is the site informative to someone interested in hiking or using trails?** Some pages have trail info, some don't.

- **What would you change about the site if you could?** Add an about page.

- **Is the site visually appealing?** Yes.

- **What is your favorite thing about the site?** I think the design, and the login page is nice.

(Interview 3) Liz Sobzcak

- **Is the site user friendly?** Yes

- **Is there anything on the site that you feel is unnecessary?** The signup, there really isn't a profile for users.

- **If you could add one additional feature to the site what would it be?** Add something that would be unique for users to save with their profile such as the trails.

- **Is the site informative to someone interested in hiking or using trails?** Somewhat

- **What would you change about the site if you could?** Add a feature to give meaning for having a login feature.

- **Is the site visually appealing?** Yes

- **What is your favorite thing about the site?** The aesthetics and the idea for the site.
